SECRET 4. On 26 July, 14 guns, presumably 37-mm AA guns, 4 armored scout cars, and about 18 trucks including some with billeting equipment were entrained at the Neustrelitz railroad station. The shipment was escorted by about 60 soldiers who wore red-bordered black epaulets. It was presumed that the train went north,4 Comment.

Units of the 28oth Gds Mtz Kirle Regt and the 199th Gds Gun Arty Rest of the 94th Cds Mtz Rifle Div were entrained. three shipments went to Altengrabow and 2 shipments to Mandahurg-Brueckfeld from Wisner on 26 July. . The artillery elements of the above units presumably were to conduct firing practices at Altengrabow and the infantry elements exercises in the Magdeburg-Letzling Heath area. The 122-nm field howitzers are a valuable indication of the organization of the Gun Arty Regt which is believed to be assigned a hewitzer battalion with 12 howitzers, in addition to AT guns. Comment. Units of the 399th (?) RL Regt of the LXXIX Mtz Rifle Corps and elements of the unidentified AT unit apparently moved to the Letzling Heath training area for exercises or firing practices. Comment. Hiements of the 283d Gds Mtz Rifle Regt and the unidentified How Arty Regt of the 94th Gds Mtz Rifle Div presumably moved to the zonal border for guard duty.

Comment. According to a previous report, AAA units of the

NODEX

9th Gds Tank Div had been entrained on 26 July.
